

Avici 1150w vs. LumiGrow BarLight Targeted

LumiGrow's BarLight Targeted has a rated life less than one third the life of the Avici and produces 24% less light, meaning you'd need more of them to light a room to the same brightness.

Avici

vs.

BarLight Targeted

2300 uMole/s

31% brighter, grows more weight per square foot.

PPF

1750 uMole/s

24% less light.

52 cents / uMole

\$1,199 / 2300 uMole = \$0.52 / uMole

Cost of Light

Unknown / uMole

Price needs to be under \$910 for same value.

1150w

Power

685w

Fully Programmable

Avici has programmable spectra and a remote controller making it suitable for all phases of growth.

Spectrum

Adjustable Colors

The LumiGrow BarLight Targeted spectrum has adjustable color changes.

\$1,199 MSRP

We offer state of the art lighting at market disruptive pricing.

Cost

Unknown

LumiGrow requires a quote to see pricing. It would need to be under \$910 to be value competitive with the Avici.

34 Years or 150,000 Hours

Avici has parts rated for 34 years. LED life is typically 55,000 hours when run at "book" temperature. Avici runs cooler so lasts 3x as long.

Lifetime

50,000 Hours

LumiGrow's BarLight is rated for 50,000 hours, which is low for industry standards and less than one third the 150,000 hour rated life of the Avici.
